

1.Redo or edit the slider widget on all pages so that it allows for captions to be inserted on top of each image slide. - SEE Directions1.png

(Output can be seen at : <http://www.sustainablewaterworks.org/the-waterfront/>

(Updates can be made following: <http://www.sustainablewaterworks.org/wp-admin/themes.php?page=design->

[settings&navigation=slide&action=edit&keys= plugin%2Cslideshows%2Cwaterfront-page-slideshow%2Cslides\\_1%2Cjvfgsf14cw4& wnonce=c464c183b0](http://www.sustainablewaterworks.org/wp-admin/themes.php?page=design-settings&navigation=slide&action=edit&keys=plugin%2Cslideshows%2Cwaterfront-page-slideshow%2Cslides_1%2Cjvfgsf14cw4&wnonce=c464c183b0)

We can use "Content with background image" to put the text on each image)

2.Make all three sections below the slider images linkable to their sections - - SEE Directions1.png  
(done)

3. Remove or edit the calendar widget so that: 1) Users can visibly see what dates have Seminars & Conferences. 2) Make the dates only show Seminars & Conferences. Right now if you click a date that has something, it shows blog posts from that particular day. - SEE Directions1.png

(I am still on it, the plugin does not offer any calendar widget, need some more time on it)

4. Change the heading "Popular Tags" to Upcoming Events and show the next 10 events/Seminars. - SEE Directions1.png

(done)

5. Add the linkedIn icon to the footer area (<http://www.linkedin.com/company/sustainable-waterworks>) - SEE Directions1.png

(done)

6. Change the footer link "blog" to say "The Waterfront" - SEE Directions1.png

(done)

7. For The Waterfront page only, we need to have only one picture in the image slider and remove the content in the blue section below image slider.- SEE TheWaterfront.png

(done)

8. Change the highlight txt function to a green. Right now it's pink when you highlight text on the site. - SEE HighlightTxt.png

(done)
